Employment

2007—Present

220 Designs, Buda, Texas Manager

Manage the day-to-day activities of a metalsmithing shop. Coordinate the fabrication and installation of projects. Schedule and manage the team's time, organize and inventory tools and materials, order and receive materials, and ensure quality standards. Guide and instruct other team members and preserve high team morale.

Create metal structures including staircases, gates, railings, large structures, and decorative pieces using traditional and modern fabricating and welding techniques. Interface with clients to develop ideas and gain approval on design and implementation.

2005—2007

San Gabriel Forge, Georgetown, Texas Welder/Blacksmith Apprentice

Designed and created metal works, including staircases, railings, landscape elements, and decorative pieces using traditional welding and fabrication techniques. Installed pieces and interfaced with clients for ideas and approval.
